

# Save A Heart CPR

## Explanation of what Blocks look like

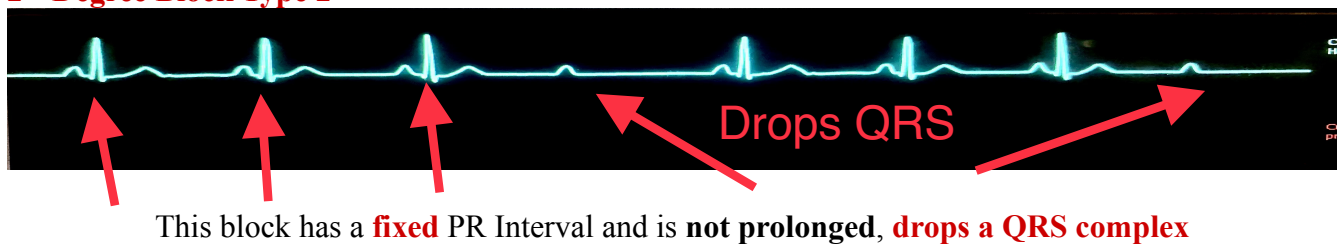

### 1st Degree Block

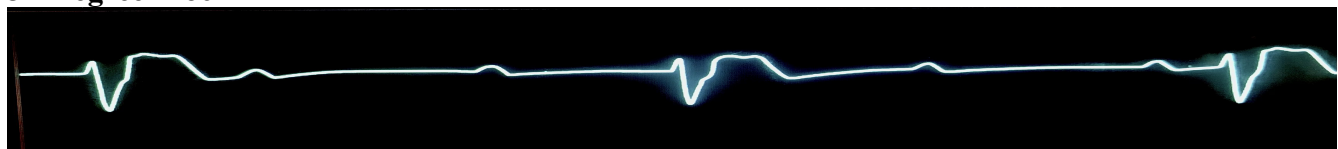

### 2<sup>nd</sup> Degree Block Type 1

### 2<sup>nd</sup> Degree Block Type 2

### 3<sup>rd</sup> Degree Block

This block has R waves marching out even with the P waves all over, does not drop anything

**Note:** The only two blocks that drop are the **2<sup>nd</sup> Degree Type 1 & Type 2**, 1<sup>st</sup> Degree and 3<sup>rd</sup> Degree blocks **DO NOT DROP**. The blocks are fixed, **variable**, **fixed**, variable in relation to the PR intervals.

Hope this helps!
